Journal of Contaminant Hydrology, 11 (1992) 331
Elsevier Science Publishers B.V., Amsterdam

Contents Volume 11 (1992)

Research Papers

Interfacial spreading effects on one-dimensional organic liquid imbibition in water-wetted porous media
J.F. McBride, C.S. Simmons and J.W. Carey (Richland, WA, U.S.A.) 1

A screening model for effects of land-disposed wastes on groundwater quality
K. Ünlü (Blacksburg, VA, U.S.A.), M.W. Kemblowski (Logan, UT, U.S.A.), J.C. Parker (Blacksburg, VA, U.S.A.), D. Stevens (Logan, UT, U.S.A.), P.K. Chong (Blacksburg, VA, U.S.A.) and I. Kamil (Logan, UT, U.S.A.) 27

Tracer dispersion in stratified porous media: influence of transverse dispersion and gravity
C. Leroy (Saint-Étienne, France), J.P. Hulin (Paris, France) and R. Lenormand (Saint-Étienne, France) 51

An improved method for the determination of capillary pressure–saturation curves involving TCE, water and air
J.H. Dane, M. Oostrom and B.C. Missildine (Auburn, AL, U.S.A.) 69

Evaluation of a pesticide mobility index: impact of recharge variation and soil profile heterogeneity
J.J. Kleveno (Honolulu, HI, U.S.A.), K. Loague (Berkeley, CA, U.S.A.) and R.E. Green (Honolulu, HI, U.S.A.) 83

A field study of the effects of soil structure and irrigation method on preferential flow of pesticides in unsaturated soil
M. Ghodrati (Newark, DE, U.S.A.) and W.A. Jury (Riverside, CA, U.S.A.) 101

Subsurface fate of nitrate as a function of depth and landscape position in Missouri Flat Creek watershed, U.S.A.
D.J. Geyer, C.K. Keller, J.L. Smith and D.L. Johnstone (Pullman, WA, U.S.A.) 127

Anthropogenically induced salinization of groundwater: A case study from the Coastal Plain aquifer of Israel
E. Rosenthal, A. Vinokurov (Jerusalem, Israel), D. Ronen (Jerusalem and Rehovot, Israel), M. Magaritz (Rehovot, Israel) and S. Moshkovitz (Jerusalem, Israel) 149

Application of phage typing to the identification of sources of groundwater contamination
P.A. Rusin, N.A. Sinclair, C.P. Gerba (Tucson, AZ, U.S.A.) and M. Gershman (Orono, ME, U.S.A.) 173

The influence of porous medium characteristics and measurement scale on porous-scale distributions of residual nonaqueous-phase liquids
A.S. Mayer (Houghton, MI, U.S.A.) and C.T. Miller (Chapel Hill, NC, U.S.A.) 189

Multi-substrate, multi-option groundwater transport model
Z. Chen and W.F. McTernan (Stillwater, OK, U.S.A.) 215

Biotransformation of BTEX under anaerobic, denitrifying conditions: Field and laboratory observations
J.R. Barbaro, J.F. Barker, L.A. Lemon and C.I. Mayfield (Waterloo, Ont., Canada) 245

Effects of soil moisture and physical–chemical properties of organic pollutants on vapor-phase transport in the vadose zone
S.K. Ong (Columbus, OH, U.S.A.), T.B. Culver, L.W. Lion and C.A. Shoemaker (Ithaca, NY, U.S.A.) 273

An experimental investigation of air venting of volatile liquid hydrocarbon mixtures from homogeneous and heterogeneous porous media
C.K. Ho and K.S. Udell (Berkeley, CA, U.S.A.) 291

Fulvic and humic acids isolated from groundwater: Compositional characteristics and cation binding
J.J. Alberts (Sapelo Island, GA, U.S.A.), Z. Filip (Langen, Germany) and N. Hertkorn (Attaching, Germany) 317
